OCO KITCHEN ISLAND

SEEN HERE: ARABESCATO MARBLE - BRUSHED FINISH

Oco is a most versatile kitchen: entirely customizable by combining different types of stone, wood, metal, lacquering and finishes. One of the most distinctive details is the 45° pairing between the worktops, doors and sides, a feature which gives the kitchen an elegant style that is, as the same time, light. The island countertop is a continuous, functional area where the wood block cutting surfaces freely shift from place to place, making for large, customizable work space.

DIMENSIONS
